This valuable resource is bundled with ACOEM's recorded webinar on Coding and Classification in OEM. The webinar discusses the issues to be considered when choosing CPT codes to characterize services rendered to workers' compensation patients, including the nature of documentation required to support their use. The basis for ICD-9 diagnosis codes is provided, followed by a description of the various types of codes available. Factors to consider in optimizing the use of ICD-9 coding to support the choice for CPT codes are discussed, along with strategies for matching ICD-9 and CPT codes in specific clinical situations. **Earn 1.5 AMA PRA / MOC EPIQ credit.**

**Speaker: Elizabeth Genovese MD, MBA, FACOEM, FAADEP, CIME, CEDIR
Medical Director, IMX**

With your purchase of this Exclusive Combo Coding Package you will receive the book and a link to the webinar recording and to download the handouts and CME form.
